

- Country-driven, country-led SDG financing frameworks are essential to implement the SDG Stimulus and achieve the 2030 Goals; Currently, 85 countries are developing integrated national financing frameworks (INFFs).
- Countries have prioritised more than 250 reforms to mobilise and align public and private financing with all dimensions of sustainability, including gender equality, climate and social sector priorities.
- 4 countries have launched integrated financing strategies at the Head of State or Minister of Finance level

## INFF emerging impacts

### COLOMBIA

**170+ companies**

Reporting to the SDG Corporate Tracker

### INDONESIA

**\$150m**

World's first publicly-offered sovereign blue bond

### KYRGYZSTAN

**4% GDP**

New tax code for **managing tax incentives** in alignment with the SDGs

### MONGOLIA

**\$900m+**

Annual expenditure aligned to the SDGs through enhanced **SDG budgeting process**

## Opportunities moving forward

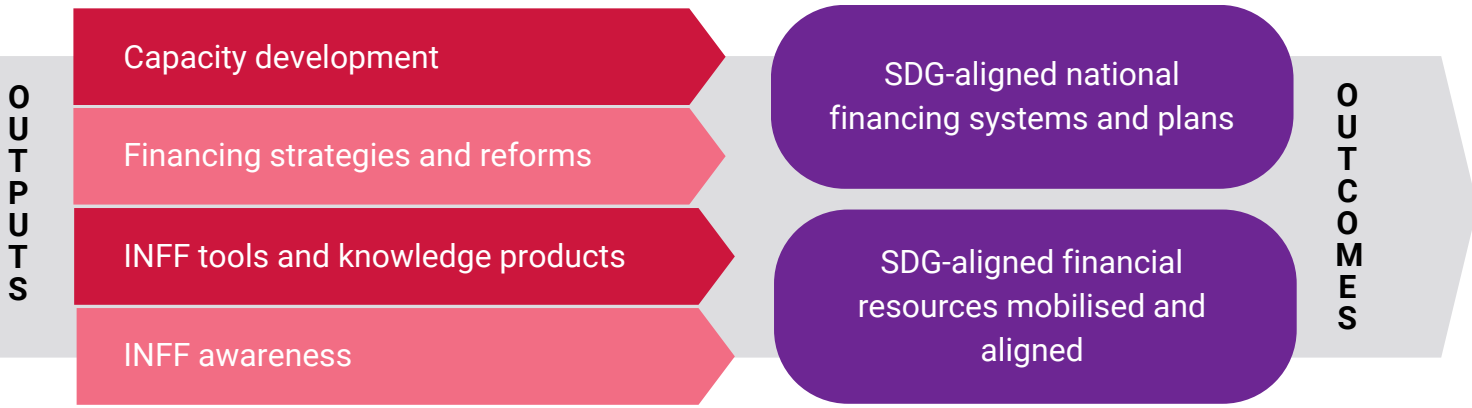

- Develop INFF Financing Strategies
- Implement key policy reforms for more sustainable, inclusive public and private finance
- Improve public expenditure by increasing reach to vulnerable populations and addressing climate mitigation and adaptation
- Engagement with private investors interested in SDGs

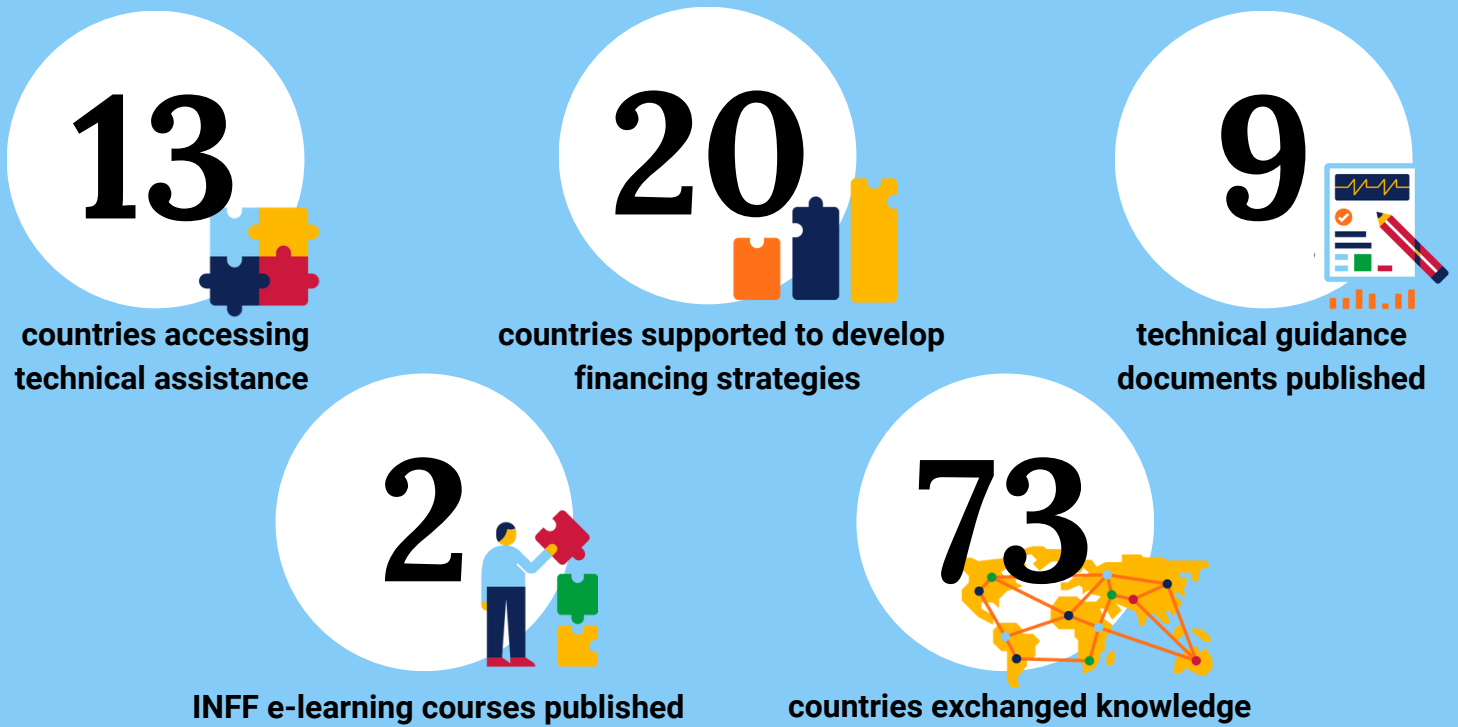

## What does the INFF Facility do?

The Facility responds to country demand – brokering technical assistance, facilitating knowledge exchange and providing access to technical guidance – helping realise the potential of INFFs to accelerate progress towards the SDGs. The INFF Facility is currently supporting one-third of the countries developing INFFs with high demand from many other countries.

# INFF Facility Theory of Change

## INFF Facility results to date

## Partnerships

A wide range of partners are supporting countries to develop INFFs. The Facility is welcoming new partners to enhance coordination and collaboration in support of country-led INFFs.
